

# SAUDI ARABIA

Overall Index Score 58.9

Overall Index Grade C

Saudi Arabia’s retirement income system comprises an earnings-related pension or an earnings-related lump sum retirement benefit for individuals who do not fulfil any of the retirement conditions.

The overall index value for the Saudi Arabian system could be increased by:

- improve the minimum level of support for the poorest aged individuals
- increasing the labour force participation rate at older ages as life expectancies rise
- improving the required level of communication to members from pension arrangements

The Saudi Arabian index value in 2018 is 58.9.
